

# FA86C rabbit pAb

Cat No.:ES16556

For research use only

## Overview

|                          |                                                                                                                       |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Product Name             | FA86C rabbit pAb                                                                                                      |
| Host species             | Rabbit                                                                                                                |
| Applications             | WB                                                                                                                    |
| Species Cross-Reactivity | Human;Rat;Mouse;                                                                                                      |
| Recommended dilutions    | WB 1: 500-2000                                                                                                        |
| Immunogen                | Synthesized peptide derived from human FA86C AA range: 7-57                                                           |
| Specificity              | This antibody detects endogenous levels of FA86C at Human                                                             |
| Formulation              | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Storage                  | Store at -20°C. Avoid repeated freeze-thaw cycles.                                                                    |
| Protein Name             | FA86C                                                                                                                 |
| Gene Name                | FAM86C1 FAM86C                                                                                                        |
| Cellular localization    |                                                                                                                       |
| Purification             | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Clonality                | Polyclonal                                                                                                            |
| Concentration            | 1 mg/ml                                                                                                               |
| Observed band            |                                                                                                                       |
| Human Gene ID            | 55199                                                                                                                 |
| Human Swiss-Prot Number  | Q9NVL1                                                                                                                |
| Alternative Names        |                                                                                                                       |
| Background               |                                                                                                                       |

**ELK Biotechnology**

Western blot analysis of lysates from MCF-7 cells, primary antibody was diluted at 1:1000, 4° over night
